-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 34 is rejected under 35 U.S.C. 102(b) as being anticipated by US Patent No. 5,332,101 to Bakula (*hereinafter* “Bakula”).

In regard to claim 34, Bakula discloses a vibratory screen assembly comprising:

- a plate (27),
- first and second side edge portions on said plate (the plate inherently has side edges),
- first and second series of apertures (Col. 5, lines 32-33; see also Fig. 17) in said first and second side edge portions, respectively,
- first and second plate flanges (25/30, 25'/30') on said plate located outwardly of said first and second series of apertures, the first and second plate flanges extending approximately perpendicular to a remainder of the plate (see Fig. 8, where flange 30 extends perpendicularly), respectively,
- an screen (22) on said plate, and
- first and second portions of said screen sub-assembly spaced from and overlying said

first and second apertures (See Fig. 17), respectively, and

- secured between said plate and said first and second plate flanges, respectively (Col. 5, line 34; see also Fig. 17)

- wherein the screen sub-assembly further comprises at least two outer edges formed into planar side planes (col. 5, lines 34-35) extending parallel to the respective first and second plate flanges (see Fig. 8) and contacting the first and second plate flanges.

Examiner notes that the term “finger receiving”, which describes the aperture, is an intended use and not given patentable weight.

Response to Amendment

Applicant has amended claim 34 to include the recitation of, “the first and second plate flanges extending approximately perpendicular to a remainder of the plate...” The amended claim does not define over the prior art of record since the flange (25/30) does extend perpendicularly to the remainder of the plate (see Fig. 8 where flange 30 extends perpendicularly to the plate). Therefore, the rejection is maintained.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 3653

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
